## GERMAN AMERICAN VOTERS

Gather in Large Numbers in Ritchie District to Listen to an Eloquent Address by

GEN. SIXT CARL KAPFF,

Who Spoke Eloquent and Effectively on the Issues of the Campaign.

The meeting in Ritchie district at the corner of Water and Forty-first streets addressed by General Sixt Carl Kapff, was a rouser and attracted a crowd of 1,000 persons. German-Americans predominated in the crowd and they cheered lustily and applauded vigorously during General Kapff's address in German. Seated on the stage were representative German-American citizens of the Eighth ward. General Kapff's address was an eloquent and effective exposition of the issues of the campaign and his convincing logic undoubtedly made many Republican votes. At the conclusion of his speech Dr. G. A. Aschman made an excellent address that was well received. His address, though brief, was a splendid argument and he tore many of the Bryan fallacies to shreds. The speakers were escorted to the stand by companies A and F of the Eighth and Fifth wards respectively, the Upper Benwood club, in natty white uniforms, and the Six Footers. They made an excellent showing and were enthusiastically greeted along the line of march.

Henry W. Schrebe acted as chairman of the meeting and in a neat and well worded speech introduced General Sixt Carl Kapff as the speaker of the evening. Mr. Kapff was greeted with an hurrah as he arose to address the crowd. He began in German and spoke at some length and was frequently interrupted with applause. At the conclusion there was an outburst of cheering and applause that lasted for fully three minutes. He then made an address in English.

Mr. Kapff began his English address by saying that it befell him to say his German-American friends would excuse him if he closed his remarks in English, as they spoke equally well the English language with that of the fatherland. George Washington said we must judge the future by the experiences of the past. He referred to the change of administrations in 1892. In General Harrison we had a very good man. Wages were pretty good, there was prosperity and general happiness. The people were told then if we got a Democratic President there would be an increase of prosperity. Look at the consequences that followed that change. They give us free trade and what was the result. In New York our laboring men suffered the indignity of depending on soup houses to prevent them from starvation. It was this way all over the country. Had the people thought of the advice of George Washington they would not have suffered that change. In any instance in which we have departed from sound currency and protection disaster came on as a natural result of an unwise change and suffering followed.

Same as in 1892.

We are now in the same position we were in in 1892, only the conditions now are even better than they were then. I ask you if the conditions in this country are not now nearly as good as they ever were at any time in the history of this country. How then can any man, if he is not a demagogue, ask for any change. You will not bring suffering upon yourself and your family. You cannot, as an American citizen, vote otherwise than for the election of William McKinley and Roosevelt, as president and vice president of this country.

You have all heard of Teddy Roosevelt, the terror. There is an open frankness and much horse sense about him and he is one of the coming statesmen of this country. (Applause.) The speaker then took up the subject of "Imperialism." He said he would not waste much time on this subject. It did not hurt our citizens if they were good soldiers, knew how to march, drill and shoot. Shall I insult this audience, as if you didn't know as well as I, that this war with Spain was not begun by America. If the Maine was not blown up this war would not have occurred. When the Maine was blown up, thank God, this nation was again one! There was no north, no south, no east, no west. That war was in the interest of humanity. McKinley as a wise statesman, selected the most capable men to command our armies. He selected General Lee and other brave generals to fight those battles that freed Cuba from the cruel yoke of Spain.

The War.

The Democrats say we have commenced this war to increase our territory and enlarge our possessions. We know our soldiers have succeeded in this war. David B. Hill, in saying our acquisition of this territory is unconstitutional and brings about the Dred-Scott decision, shows he is not the able lawyer he is generally thought to be. Common sense will teach you that if it was constitutional for us to commence this war, it is certainly constitutional to keep the favorable results of that war and keep them under the strong hand of the stars and stripes forever and ever.

Shall we carry out the idiotic purposes which Mr. Bryan will carry out if he is elected, but thank God he never will be. (Applause.) It was pure patriotism in the interest of humanity which prompted America to declare war against Spain. The treaty of peace signed at Paris advocated by Bryan, gives us sole title to the Philippine Islands. Their acquisition will be a great boon to open our mines and increase our manufactures. This alone should prevent us from sacrificing this territory. We have erected schools inaugurated sanitary measures and put the Philippines in a healthful condition that the islands have never experienced before. There is only one tribe that is not thankful to this coun-

try for the liberating them from the cruel tyranny of Spain. This tribe is encouraged and spurred on by Bryan and his followers.

Sold Out to Populism.

There can be no doubt that in the Chicago platform in 1896 the principles of Democracy as advocated by Jefferson were sold out to Populism and anarchy. This country never had in all its times a more able President than we now have and will have for four more years, than William McKinley. (Cheers.) The Democrats have taken the platform of 1896 and incorporated it in full in the platform of 1900. At the instigation of William J. Bryan they have placed in that platform "Imperialism" to defraud and deceive the people of this country.

The coming election will kill Bryanism in a manner that we will never be able to resurrect it. (Applause.) Alongside of this party of fraud and deception let us look on the other side. The speaker then contrasted the Democratic and Republican parties in the matter of pensions. Under the Republican administration the seeker after pensions can go to Washington without introduction, go into the pension office and, if he deserve it, he will secure his pension.

Mr. Kapff then delivered a glowing eulogy of Theodore Roosevelt and said the Democrats were endeavoring to besmirch his character, saying he was a hypocrite and spreading other falsehoods about him. There was no more courageous and manly man than Theodore Roosevelt. He referred to his good work in New York city and later as governor of the state.

If you want to keep a sound currency, an honest dollar you must vote for William McKinley. It would be base ingratitude for us not to elect him. Do you want to rob your possessions of one half of their value. Don't scratch. Vote the ticket straight down to the smallest county office and bring about a complete Republican victory in this election. (Applause.)

I hope that when I read the reports in Wheeling in which I have the honor of being in for the first time, that there will be a magnificent victory for the party of sound money and protection. (Applause.)

## ALL DAY SUNDAY

She Thought About a Food That Would Agree with Her.

An unnatural appetite for rich and improper food is really kept alive by the use of such foods, whereas a change to healthful, nourishing, and scientifically made food, will correct the unnatural appetite. A little woman up at Peckskill, N. Y., Margaret Smith, P.O. Box 13, says:

"I was such a sufferer from dyspepsia that life was a burden. I could hardly keep from eating all sorts of pastry, cakes, and other rich foods, although they did not agree with me, nor in fact did any sort of food. I became low spirited and discouraged, was too weak to work and very seriously troubled with palpitation of the heart. 'Drugs seemed to make me worse rather than better. A friend said, one day, 'I believe Grape-Nuts food would cure you,' explaining that that food was made with great care and intended for the prevention and relief of diseases that were brought about by improper food."

"That was Saturday night, and all day Sunday I kept thinking about Grape-Nuts, and the first thing Monday morning I sent for a package. I had it in my mind that the food would look like nuts, and was disappointed when I found it had to be eaten with a spoon. However, I followed the directions and made a meal of Grape-Nuts and milk, which I found to be delicious, and for the first time in months, I suffered no distress after eating."

"I at once began to feel hopeful that I might be cured at last. Since that day I have used Grape-Nuts constantly, morning and night and have steadily improved in health, until now I am as well as I ever was in my life; weigh 10 pounds more than I did a year ago, have no palpitation of the heart and can work all day long."

"At supper I have Grape-Nuts mixed with soft-boiled eggs. I make my dinner on any kind of food I desire. One of the best things about this cure by proper food is that I no longer have any desire for the rich indigestible rubbish of which I used to be so fond."
